Education Sciences Research Methods Core
12 credit hours

This series of courses is designed to ensure fundamental understanding of research methods from both the quantitative and qualitative methods and is required by all students in the Education Sciences doctoral program. Students can take additional research methods courses beyond the required twelve hours as permitted in their discipline-specific strands. A full listing of recommended courses can be found on page 4 of this document. The requirements are as follows:

- One three-hour course in quantitative research methods.
- One three-hour course in qualitative research methods.
- One additional three-hour course in either quantitative **or** qualitative methods to form a “core” of six hours in quantitative or qualitative methods.
- One three-hour course in advanced studies in research methods. The advanced course may be in any area, including internships and academic writing, and will typically include “Advanced” in the course title. This course is to be selected by the advisory committee to meet the specific research and statistical training needs of the student.
