Concentration

18 credit hours

This series of courses composes the focus area of the student's program of study leading to the development of a compelling research question for the dissertation. The Specialization in Diversity, Equity, & Inclusion requires three core courses, which comprise the embedded Graduate Certificate in Senior Diversity Officer Leadership, listed below. The remaining concentration courses should reflect the student's specific interest area in the study of diversity, equity, and inclusion in higher education. A list of recommended electives is found on page 4 of this document.

Contextual Study Electives

12 credit hours

Students are required to complete twelve additional elective hours in support of their research interests to round out their program. Students should work with their advisor/advisory committee to determine these courses. Courses may be chosen from any department, but together should tell a story that supports the student's interests and dissertation plans. The Graduate Certificate in Diversity & Inclusion in the College of Arts & Sciences is recommended, but not required.

DEI in EPE - Recommended Electives to build Concentration or Context

(These are regularly offered courses)

EPE 654 Diversity and Higher Education: This course examines how various aspects of post-secondary education are impacted by diversity, power, and privilege. While race and ethnicity are foregrounded in this course, students also engage in readings and critical discussions regarding the role of gender identity and expression, socio-economic status, religion, sexual orientation, and able-bodiedness on issues such as post-secondary access, the college student experience, college/university curricula, higher education policy, and administrative practices. (Fall-Online)

EPE 674: Theories of Student Development: This course is an examination of theories and related research that inform our understanding of patterns of student growth and development during college years. Students engage in critical analysis of theories of identity development through analysis of self and the voice of others. This course examines major bodies of theory related to college student development and the constraints and affordances of contexts in which that development occurs. (Summer-Online)

EPE 675: Sociology of Higher Education: A study of higher education and society using sociological views and policy perspectives. Topics include inequality and diversity in higher education; universities and colleges as social organizations and cultural institutions; the academic profession, academic departments and disciplines; the social and academic lives of students; as well as the impact of higher education and its relations to labor markets. (Spring, Summer-Online)

EPE 683: Equity and Access in Higher Education: This course will examine the legal, educational and public policy issues that promote or hinder access to higher education. The focus will be on selective public and private institutions. (Spring-Online)
