We are pleased to invite your student to participate in the See Blue Science, Technology, Engineering, and Mathematics (STEM) Camp either June 5-9, 2017 or June 12-16, 2017 at the University of Kentucky. The week-long day camp is designed to help students explore and integrate the STEM disciplines through hands-on projects and real world applications.

### Sessions

The Camp is divided into 2 - three-hour sessions and will include projects that integrate each of the four STEM areas. Our anticipated session topics include, but are not limited to, the following:

- **Dr. Bruce Walcott**, Associate Dean, UK College of Engineering – Dr. Walcott will be presenting on Engineering in today’s world and will also help with LEGO robotics.
- **Mr. Mark Evans**, Robotics Teacher, Jessie Clark Middle School & **Mr. Robbie Randall**, Robotics Teacher, Beaumont Middle School – Mr. Evans & Mr. Randall will lead the LEGO Robotics competition. As Robotics club sponsors, they have led several teams to state awards in the First Lego League and state competitions.
- **Center for Applied Energy Research (CAER)** Faculty
- **More partners to be announced soon!**

More detailed information for the parents will be available at the beginning of May.

### Space

Space is limited to the first 72 incoming 5-6th grade students and the first 72 incoming 7-8th grade students for each week of camp with a completed application. A wait list will be generated for those wishing to attend.

### Cost

The cost of the camp is $175 per child. This will cover the cost of materials used and lunch each of the 5 days, as well as a camp t-shirt, water bottle, USB drive, & tote bag.

Register online or in-person and an invoice will be sent to you with payment information.
