Embedded programs are typically offered during the fall and spring semesters with travel occurring during semester breaks.

## 4. ACADEMIC COURSE INFORMATION:

In order for residential UK courses to be taught off-campus, the academic content must be consonant with the original intent and learning outcomes of the course. In cases where the learning outcomes are substantially different, a "Special Topics" designation within the major must be used. When the learning outcomes remain consistent with the already approved UK course, the regular course number and title will be used.

For summer and winter intersessions, the academic course(s) will be accompanied on the transcript by ISP 599: Study Abroad. This is a one credit hour pass/fail course used to indicate that the enrolled student is participating in an education abroad program. Courses delivered entirely abroad will carry a section number of 701-799 and will be built as "off campus" activity types. They will also be accompanied by a course note indicating that the course is taught abroad.

For fall and spring *embedded* education abroad programs, participants will not be enrolled in ISP 599 and the course should not be built as "off campus" or with the 701-799 section number. Academic courses taught via embedded programs should be built with a course note indicating that the course has a required international travel component.

If the program is open to graduate students, please include both the undergraduate and graduate course information. It is acceptable to list the graduate credit as something that must be arranged individually.

## RISK MANAGEMENT

### 1. DESTINATION SPECIFIC HEALTH AND SAFETY CONCERNS:

All Education Abroad at UK programs must adhere to best practices in health, safety and security. Additionally, UK Risk Management may be asked to review program structures to minimize institutional liability.

Per AR 4:9, the University does not sponsor or approve international travel for educational purposes in a country for which a U.S. Department of State Travel Warning is in effect. However, the University will consider exceptions on a case-by-case basis. Exceptions are based upon petitions submitted by each student, faculty, or staff employee proposing the travel, and are reviewed by the Travel Warning Subcommittee of the Education Abroad Advisory Committee. The Subcommittee makes a recommendation to the Associate Provost for International Programs, who consults with the college dean, or designee, before making a final decision.

Please review the following websites and identify any health and safety risks in the destination country(s) in the provided textbox:

- [Center for Disease Control](http://www.cdc.gov/travel/) [http://www.cdc.gov/travel/]
